

PRESS RELEASE - December 2009

Change in Funkwerk Avionics General Management

In 2007 Filser Electronic GmbH was taken over by the Funkwerk Group and later-on renamed into Funkwerk Avionics GmbH. As a next step, the aerospace business unit of Euro Telematik AG, another company within the Funkwerk Group, was integrated into Funkwerk Avionics in early 2008.

As a result of the continuing integration process, Michael Frost, the former owner and General Manager of Filser Electronic GmbH, has decided to resign his position as General Manager of Funkwerk Avionics on the 1st of January 2010.

The company, therefore, will be run by Dr. Thomas Wittig, who was leading the company up to now together with Michael Frost and who was responsible as member of the executive board for the aerospace business of Euro Telematik from 2001 to 2007.

Michael Frost, however, will stay with the company and will be responsible from now on for the avionics sales. He will fully concentrate on the challenges of this market and will remain as competent focal point for all our customers, distributors and partners.

Funkwerk Avionics is based in Waal (Bavaria) and Ulm (Baden-Württemberg). Funkwerk Avionics is an EASA approved production and maintenance organisation for aircraft equipment (EASA Part 21G and 145). We develop, produce and sell avionics equipment and avionics system solutions in the areas of communication, navigation and displays. The company offers the “Filser“ product lines of TRT Mode-S transponders and ATR VHF voice radios for general aviation. The products are sold to aircraft manufacturers and via a comprehensive dealer network all over Europe. Funkwerk Avionics also develops avionics equipment and system solutions for major OEM companies such as Airbus Deutschland, EADS Deutschland and public agencies such as Eurocontrol or the European Space Agency (ESA).

Based in Köllda near Erfurt, **Funkwerk AG** develops, produces and markets professional communication systems used in vehicles, transport and other companies and institutions. With its three segments Traffic & Control Communication (professional communication and information systems for transport and industry), Automotive Communication (communication equipment for vehicles) and Enterprise Communication (messaging systems and network solutions for companies and institutions), Funkwerk occupies a strategically excellent position in future markets. With over 1,600 employees, Funkwerk generates sales of some 300 mill. Euro.
